

NGN SUMMIT
Converging Innovations

**13th to 15th
February 2017**

Report on

NGN Summit 2017, Hyderabad, India

Global Summit on Telecom, ICT & IoT

www.ngnsummit.com

The NGN Summit

The Summit had a unique strategic focus that reveals Next-Generation Networks not as a resource burden, but a foundation for economic viability and quality of life. "Convergence World" with shrinking differences, disappearing virtual borders, making the globe a virtual market places not just for cutting edge technology products, but even for a conventional earthly product from a remote rural place. In particular, the Summit brought together topnotch case studies to share on capability development for sustainable development and growth opportunities that NGN can offer.

Our Mission

NGN Summit 2017 is an idea to create a platform for the Technocrats, Researchers, Investors, Telecom Vendors, Partners, Operators etc.. for internetworking. The mission is to promote technology, discuss new innovations and address the issues and challenges the Telecom Industry is facing.

The first NGN Summit was held at **HITEX**, Hyderabad, India from **13th to 15th February 2017**. The industry leaders from diverse continents converged to discuss, deliberate and showcase their innovations that can disrupt the way the world operates today.

The Summit

The NGN Summit witnessed over 1270 dignitaries including visitors from India, Japan, Nepal, Nigeria, Sudan, Liberia, Germany and Middle-East.

The Summit attracted 63 exhibiting companies from diversified domains of Telecom, ICT and IoT.
